Re: Case 2012-00458

Dear Mr. Derouen:

Western Kentucky University's Center for Water Resource Studies conducted a Water Auditing and Loss Control Workshop, jointly with the KY/TN Section of American Water Works Association, in Bowling Green, KY on December 4, 2012. The workshop taught best practices in the industry for controlling water loss, including saving operating expenses and increasing revenues.

The Public Service Commission (PSC) previously approved 6 hours of continuing education credit for board members and commissioners who attend this training. There were no significant changes to the speakers, agenda or curriculum between the original request to the PSC and delivery of the workshop. The Mayor of the City of Nortonville, Barry Merrill, attended all 6 hours of this training.

Please let me know if you have any questions or need additional information. I can be reached by phone at 270-745-8706 or via email at jana.fattic@wku.edu.

Sincerely,

Jana Fattic
Interim Director
